Lisa Gordon will facilitate this series, exploring what encourages and discourages your work for local and global, social and ecological justice. By the end of the series, you will be more fluent with your courage and more clear on where your courage is needed. Our sessions will help you find, replenish and draw from your personal well of courage to engage in political arenas. The final two evenings invite you to engage in a Clearness Committee, a 300-year old Quaker way to hear your inner wisdom.

Lisa Gordon is a facilitator accredited by the Center for Courage & Renewal.

This series will use the Circle of Trust® method.
